CLASS DESCRIPTIONS

Ahlan! Arabic for Kids

'Ahlan', meaning 'Hiya', is an Arabic Language program that is both fun and educational. Children will hear stories, work with letters and numbers, and join in song to learn new or reinforce their skills in the Arabic Language. Children are grouped according to ability. Depending on children, this may be planned as an beginners or advanced class.

Boogie Babies Toddler Playgroup (Arabic & English)

Sing, dance, play and make friends are the highlight of this toddler group. Children will have the opportunity to experience a center like setting with areas like Pretend, Arts & Crafts and Discovery to explore and learn from. A parent or primary care giver will need to stay with the child until he/she is comfortable to be alone.

Art Attack

Molding clay, staining glass, making paper mache clowns and easle painting will keep budding artists engaged.

Crazy Chefs

Children will explore cooking AND learn healthy eating habits with Crazy Chefs. Children will be engaged in games and activities about foods that are 'good for our bodies' as well as following recipes that are healthy yet fun to make.

Planet Protectors

As a Planet Protector, your mission is to improve the world around you by making less trash. Planet Protectors also help other people learn to reduce, reuse, and recycle.

Math Magicians

A math class for young children where they explore numbers and number concepts.

Literacy Learners

Learning reading and writing while using creative writing skills and expressive language.

Ola! Spanish for Kids

Using Muzzy Language Learning from the BBC that includes songs, stories and computer software.

Goal Busters Football Club

A grass roots football club for 1 year olds to gain pre-football skills and have a blast kicking and dribbling.

Kindermusik

Kindermusik offers classes structured around singing, games, movement to music, and listening activities for all age groups (and their parents) between birth and 6 years. The philosophy of Kindermusik education involves parents as the most important teachers and the home environment as the most important place to learn. Kindermusik is a method of early childhood education in music and movement. It combines the early learning music methods of Carl Orff, Zoltan Kodaly and Suzuki method with early childhood development research. The Kindermusik philosophy is founded on the following fundamental beliefs: every parent is the child's most important teacher, every child is musical, the home is the most important learning environment, music nurtures a child's cognitive, emotional, social, language, and physical development

Madscience

Mad Science® is the world's leading science enrichment provider. We deliver unique, hands-on science experiences for children that are as entertaining as they are educational. Mad Science is proud to introduce millions of children to a world of discovery while sparking their imagination. Mad Science encourages scientific literacy in children in an age when science is as vital as reading, writing and arithmetic. Mad Science® is on a mission to spark the imagination and curiosity of children by providing them with fun, interactive and educational programs that instill a clear understanding of what science is really about and how it affects their world.

StudioCeramics

A fun and entertaining pottery class! Kids will get to play with clay and paint ceramic pieces and create colorful masterpieces to take home!
